

Year 1 have been learning about where their food comes from. One focus, during their Antarctic topic, was finding out about fish.

Here they are with Mr Marshall, learning that there is more to fish than fish fingers!

The children also learnt about the correct use of sharp knives, using them very carefully to cut up leeks and potatoes for a healthy, homemade leek and potato soup.

The children really enjoyed learning how to use techniques such as cutting, peeling and grating.
