

**Year 2** have been learning about food from other cultures, and during their topic about China, they learnt how to make a healthy and nutritious noodle dish.

Here they are, learning that there is more to noodles than a Pot Noodle! They are much more fun to prepare, and they taste better too!

The children also learnt about the correct use of sharp knives and peelers, using them very carefully to peel and cut up a variety of vegetables for their noodle dish.

The children really enjoyed learning how to use techniques such as cutting, peeling and grating.
